Tanvir Ahamed

Front-End Developer

Email: tanvirahamed1943@gmail.com

Phone: +8801923983877

GitHub LinkedIn

Summary

Enthusiastic React front-end developer with a solid foundation in web development and a strong passion for creating engaging user interfaces. Skilled in HTML, CSS, JavaScript, and React fundamentals. Proven ability to learn quickly, collaborate effectively in team settings, and solve problems creatively.

Featured Project

Fancode - Chatting Application

React js | Tailwind Css | Redux Toolkit | Firebase
Ant Design

The platform is a comprehensive chatting application designed to enhance social interaction through various features. Users can send, accept, or cancel friend requests, add or block friends, create groups, join other groups, and invite others to join. It also offers real-time live messaging and group live messaging, making communication seamless and interactive. With these functionalities and more, the platform provides an engaging and versatile communication experience for users across different social settings.

Education & Training

- **Daffodil International University - (CSE)**
  (2020 - 2024) - Dhaka ,Bangladesh

- **Bogura Goverment Collage - (HSC)**
  (2017 - 2019) - Dhaka ,Bangladesh

- **MERN STACK DEVELOPMENT - (MERN)**
 *(2023 - present) - Creative it Institute*

Work Experience

- **Khagan BD - Frontend Developer**
  (2024 - Present) - Dhaka, Bangladesh

  My role is to convert UI to code with pixel perfection and maintain compatibility with all browsers. Optimizing and scalability are my primary role. Also, I worked on converting UI using Gutenberg with React JS.

Skills & Tools

- **Technologies**

Front-End	HTML	Css/Sass	Tailwind Css
	Javascript	React Js	Redux
	Ant Design	MUI	Bootstrap
	Context API	Redux Toolkit	

  | Back-End | Node JS | Express JS | Firebase |
  | | Mongo DB | Rest API Development | |

- **Tools & Softwares**

  | Code related | Git | Github | Vercel | Netlify |

  | Design related | Figma | Adobe XD | Illustrator |
  | | Adobe Photoshop | | |

Currently Preparing

Currently focused on mastering the MERN stack by building full-stack applications, improving API development, front-end design, and database management skills.
